## Authentic Taste of Maui

### Kahului, Maui

**Duration:** 6 hours

**Activity Level:** Easy

**ADULT FROM:** \$219.00 USD

**CHILD FROM:** \$219.00 USD

Savor authentic Hawaiian dishes and beverages at several establishments in the historical district of Wailuku, which nestles at the foot of the West Maui Mountains.

After departing from the pier, you will soon arrive in the heart of historical Wailuku, where you will stop in a variety of unpretentious restaurants and locales to sample pure Hawaiian specialties. Some of the dishes will reflect the town's Asian and Pacific Islander ethnicities.

While the exact offerings will vary, you can expect to taste breakfast staples such as banana pancakes and hot malasadas, a fried-dough treat that Portuguese sugarcane workers introduced to Hawaii in the late 19th century.

Loco Moco is another classic, and the Tasty Crust has been serving it for more than 40 years in Wailuku. The dish is a savory combination of rice, hamburger patty and brown gravy, topped with a fried egg or two.

Likely, you will also sample delectable sashimi, a variety of poke bowls and seasoned saimin noodles. Another favorite is Spam musubi, a handheld with a slice of Spam wedged between two blocks of rice and wrapped in nori, a Japanese seaweed.

You will also sample several beers at the Maui Brewing Company, Hawaii's largest craft brewery. Selections range from a citrus-flavored India Pale Ale known as Big Swell to Coconut Hiwa Porter, a robust dark ale with hints of mocha.

### Haleakala Crater

**Kahului, Maui**

**Duration:** 4 hours

**Activity Level:** Easy

**ADULT FROM:** \$125.00 USD

**CHILD FROM:** \$85.00 USD

Check out Maui's massive Haleakala volcano from bottom to top, as you journey from sea level to the summit to view spectacular island scenery and the immense crater of volcanic rock. You can catch a glimpse of Haleakala, Maui's massive dormant volcano, from almost any point on the island, but you will go all the way to the top on this scenic journey – from sea level to 10,000 feet. At the summit is a vast crater seven and a half miles long by two and a half miles wide, and 3,000 feet deep. It last erupted in 1790 and has slumbered ever since, though that does not mean it won't one day wake up. The Hawaiians revere it as a sacred site, and tell tales of Pele, Goddess of Fire and Volcanos.

The views from the top are magnificent. If the day is clear, you may even make out two other towering peaks – Mauna Loa and Mauna Kea on the Big Island. From the crater's rim, you'll be able to appreciate firsthand the unique beauty of this imposing caldera with its interesting mix of volcanic rock and plant life, some of which, like the silver sword plant, is found only in Hawaii's volcanic craters.
